## Wendy Eisenberg - *Eye Music*

George Ubben

In a jazz cycle about sight and higher understanding, Wendy Eisenberg, accompanied by five other musicians, showcases her undeniable experimental and classical string abilities.

The piece's rhythmic cycle flows with unexpected energy and flair, flaunting Eisenberg's unique ear for novel sounds. Featuring classic-leaning jazz songs such as "Two Times Water", and "Set A Course", as well as tasty guitar licks from "Lasik" and "HM", Eisenberg's

*Eye Music* explores an expansive range of harmonies, and in turn, emotions. Each instrument is orchestrated to blend and strengthen, with hypnotic drums maintaining an urgency for the guitar and trumpets' oscillating melody, and a piano that flows both freely, and competitively, in beautiful synchronicity.

*Eye Music* leaves you dizzy and wanting.
